

Micro Module 2U Manufacturer

LoRa handheld portable base station

Article Overview

Supermicro, Kontron, and Advantech are leading manufacturers of 2U modular servers, including micro-module designs.

Supermicro

Supermicro produces a wide range of 2U SuperServer systems that support modular configurations, high-density storage, and flexible I/O options. Examples include the SYS-622B-TRT and SYS-212B-FN4TP, which are designed for high-performance computing, AI workloads, and industrial applications, offering features like dual Intel Xeon processors, multiple PCIe slots, and remote management via IPMI . Supermicro is widely recognized for its modular 2U chassis that can accommodate various compute and storage modules.

Kontron

Kontron specializes in carrier-grade 2U servers optimized for industrial and edge computing applications. Their 2U systems, such as the SYMKLOUD Media platform and MS2900, provide high memory capacity, flexible I/O, and support for multiple GPUs. These servers are designed for long-life, scalable deployments in harsh environments, making them suitable for video surveillance, edge AI, and M2M applications .

Advantech

Advantech offers 2U rackmount chassis with a modular design that allows easy mai...
