

Mongolian Single-Mode Smart Building Fiber Optic Cable Splicing Manufacturer

Article Overview

Moncable Systems LLC and New Optic LLC are leading Mongolian providers for single-mode fiber optic cable splicing and smart building network solutions.

Moncable Systems LLC

Overview: Moncable Systems LLC, operating since 1996, is a prominent Mongolian engineering contractor and system integrator specializing in telecommunication infrastructure, including fiber optic networks for smart buildings, automation, and security systems (Moncable Systems LLC) . Fiber Optic Capabilities: They supply and install high-quality fiber optic cables, including single-mode types suitable for high-speed broadband and smart building applications. Their installations follow Mongolian standards such as MNS 5207:2023 and MNS 6597:2016, covering underground, aerial, and micro-trenching methods (Moncable) . Splicing Expertise: Moncable uses advanced techniques for fiber splicing, likely employing core alignment fusion splicers, which ensure precise alignment of fiber cores for minimal optical loss, critical for smart building networks (Jonard Tools) . Experience: The company has completed extensive projects across Mongolia, including over 20,000 km of telecom infrastructure and multiple provincial fiber optic deployments, demonstrating strong technical and logistical capabilities (Moncable Systems LLC) .

New Optic LLC

Overview: New Optic LLC has been active in Mongolia since 2004, providing commu...
