

Multimode FC fiber optic quick connectors are easy to install

Overview

With a few easy steps, installing EZ-QUICK® Field-Installable connectors takes less than 2 minutes to achieve low loss terminations on singlemode or multimode 250um, 900um, 2mm, and 3mm fiber cables. These connectors require no special tools or skills. Its threaded coupling design accommodates. Unlike traditional fiber optic terminations that require epoxy. Multimode fiber optic connectors are devices used to join multimode optical fibers to other fibers or fiber optic components. Proven mechanical splice technology ensuring precision fiber alignment, a factory pre-cleaved fiber stub and a proprietary index-matching gel combine to. With proven field-installable connector technology, fiber terminations are fast, easy, and reliable.
