

NCS communication optical cable

Overview

NCS delivers exceptional fiber optic service and support through: Ready to future-proof your infrastructure with advanced fiber optic cabling Contact us to request a custom quote tailored to your project's requirements. It delivers unmatched performance, reliability, and scalability compared to traditional copper systems, making it the preferred medium for high-speed. The NCS 1010 offers a best-in-class Open Dense Wavelength Division Multiplexing (DWDM) line system that can be managed (e. configured, monitored, and even automated) through a common software layer with the use of standard APIs and data models and fits the disaggregated 'open' line system model. The High-Speed Network Communications Module (HS-NCM) provides NOTIFIER®'s N16, NFS-320, NFS-640, NFS2-640, NFS-3030, and NFS2-3030 Fire Alarm Control Panels, NCD, NCA, and NCA-2 Network Control Displays and Annunciators, and DVC Digital Voice Command with a means to connect to High-Speed. NCS provides a lifetime warranty on workmanship and five year warranty on parts and material. Abuse, misuse, and handling of cabling by other contractors can void your warranty. Below is a partial list of our day to day material, hardware, and industry reference. CABLE, CONNECTING, TESTING, MISC. We are a full-service custom integration firm providing the design and installation of sophisticated electronic systems for commercial and residential environments.
