

Niton Spectrometers in Stock

Article Overview

Niton XRF and LIBS spectrometers are available for purchase, rental, and refurbishment from multiple suppliers, including Thermo Fisher Scientific and authorized distributors.

Available Models and Options

Thermo Scientific Niton analyzers include handheld XRF and LIBS devices designed for rapid, accurate, and non-destructive material analysis across industries such as mining, metal recycling, environmental testing, and manufacturing . Popular models include:

- Niton XL3t GOLDD Plus – High-performance handheld XRF for alloy and material identification .
- Niton XL2 980 – Compact analyzer for rapid elemental and alloy analysis .
- Niton XL3t 700S – Fast, accurate elemental and alloy analysis in industrial environments .
- Niton XLP 818 – Multi-element analyzer with optional wireless printer and Bluetooth connectivity .
- Niton XLi 818 – Portable material analyzer suitable for field use .

Purchase, Rental, and Refurbished Options

- New Units: Thermo Fisher Scientific offers the latest Niton analyzers with advanced technology, user-friendly interfaces, and durability .
- Refurbished and Used Units: Available through resellers like Machinio and AAATes...
