

Nordic Solution Butterfly Drop Cable OM4

Overview

The cable is made from a 900µm buffered fiber that is reinforced with strain relief aramid yarn and a blue 2. It provides a flexible and durable cable where the fiber can move inside the cable to allow the ferrule to spring upon connection. 100% end-face, 3D interferometer, IL&RL tested. FC, LC, MTRJ, E2000 connector in simplex and. Viper Ease is the next generation of micro cables that brings unique features never seen before at this scale. Every brand has a different purpose. Stingray is perfect for drop. ClearCurve multimode laser-optimized, bend resilient fibers are widely deployed to deliver high data rate, low latency transmission. As the inventor of bend-insensitive optical fiber, Corning ensures quality and reliability by measuring key attributes, including effective modal bandwidth on every.
