

Online Purchase Platform for Optical Communication Products

Article Overview

Optical communication products, including fiber cables, transceivers, amplifiers, and test equipment, can be purchased online from specialized suppliers like FiberMall, Fiberinthebox, Corning, and FindLight.net.

Key Product Categories

1. Fiber Optic Cables and Bundles: Single-mode and multimode fibers are available for long-haul, data center, and FTTH applications. Single-mode fibers support long-distance transmission, while multimode fibers are suited for shorter distances and high optical power applications .
2. Optical Transceivers and Active Cables: Modules such as CFP, QSFP+, and CWDM transceivers provide high-speed connectivity for data centers and enterprise networks. Active Optical Cables (AOC) offer low-power, high-performance interconnects for 40G and 100G Ethernet .
3. Passive Components: CWDM multiplexers/demultiplexers, MTP/MPO trunk cables, and connectors allow efficient bandwidth utilization and high-density installations .
4. Test and Measurement Equipment: OTDRs, power meters, and optical spectrum analyzers are essential for network characterization, fault detection, and performance verification .
5. Amplifiers and Subsystems: Fiber amplifiers and integrated subsystems support long-haul and high-capacity links, including WDM and 5G fronthaul/backhaul networks .
