

Optical Communication Bit Error Meter Calibration in Vietnam

Article Overview

Optical communication bit error meters (BERTs) in Vietnam can be calibrated by ISO/IEC 17025 accredited laboratories such as Techmaster Electronics, Tech Metrology & Calibration, TMP Vietnam, and SGS Vietnam, ensuring traceable, high-accuracy measurements.

Key Calibration Providers

Techmaster Electronics JSC offers a wide range of calibration services, including electrical and optical measurement instruments. Their laboratory is ISO/IEC 17025 certified and aligned with international standards under the ILAC Mutual Recognition Agreement (ILAC-MRA). They provide both on-site and in-lab calibration, ensuring that BERTs are tested under controlled conditions for temperature, humidity, and other environmental factors, with certificates accessible online and automated reminders for future calibration due dates . Tech Metrology & Calibration (TMC) specializes in calibration, repair, and rental of electronic measurement equipment, including optical instruments. Their engineers are trained in optical calibration and hold certifications in accordance with relevant standards. TMC's facility is fully equipped with advanced tools and a dedicated technical area for precise calibration of complex instruments like BERTs . TMP Vietnam provides professional instrument calibration services with state-of-the-art imported equipment. They offer prompt on-site and off-site calibration for electrical and optical instruments, ensuring accuracy comparable to national and international standards. TMP emphasizes fast turnaround and competitive pricing while maintaining high measurement precision . SGS Vietnam o...
