

Optical Receiver Suppliers

Article Overview

Top optical receiver suppliers include Discovery Semiconductors, Newport Corporation, Fermionics Opto-Technology, and Thorlabs, offering a range of photoreceivers for fiber optic communication and research applications.

Leading Suppliers

- **Discovery Semiconductors:** Based in Ewing, New Jersey, they manufacture optical photodetectors and receivers for digital communication, including photodiodes, RF and optical receivers, fiber optic modules, narrow-band receivers, and wide-band amplifiers, supporting signal detection, amplification, and transmission .
- **Newport Corporation:** Offers a broad portfolio of optical receivers and photonics solutions for research, industrial, and telecommunications applications .
- **Fermionics Opto-Technology:** Specializes in high-performance optical receivers for data communication and measurement systems .
- **Thorlabs:** Provides ultrafast fiber optic photoreceivers, including multimode and single-mode fiber-coupled receivers with wide wavelength ranges. Their RXM Series features hermetically sealed microwave detector modules, differential RF outputs, and custom OEM options .

Additional Suppliers and Distributors

Other notable suppliers include Precision Optical Transceivers, E.C.I. Networks, Applied Optoelectronics, Inc. (AAOI), and GrenTech, which focus on optical transceivers and networking equipment compatible with high-speed data transmission and cloud or telecom networks . These companies often provide custo...
