

Optical cable OPPC price

Article Overview

OPPC (Optical Phase Conductor) cables are available starting from approximately US\$1 per piece, with prices varying based on specifications and supplier.

Price Overview

OPPC cables, used for power transmission lines with integrated optical fibers, are offered by multiple manufacturers at competitive rates. For example, Henan UME Cable Co., Ltd. lists factory prices starting at US\$1 per piece, with delivery times ranging from 3–30 days depending on stock and order quantity . Other suppliers, such as Zion Communication, also offer low-cost, high-quality OPPC cables directly for power transmission applications .

Factors Affecting Price

- Cable Specifications: Diameter, number of optical fibers, and conductor material (aluminum or steel-reinforced) influence cost.
- Order Quantity: Bulk orders typically reduce the per-unit price.
- Supplier Location: Prices may vary depending on shipping costs and regional tariffs.
- Certifications and Quality Standards: ISO, CE, SGS, and TUV certifications can slightly increase cost but ensure reliability .

How to Get Accurate Pricing

- Contact suppliers directly for custom quotes based on your project requirements.
- Request samples to verify quality before bulk purchase; some suppliers provide samples at minimal cost
