

# Outdoor charging distribution box specifications and dimensions

## Article Overview

Outdoor charging distribution boxes are weatherproof, modular enclosures designed to safely distribute power to multiple EV chargers, with capacities ranging from 100A to 630A and IP55/NEMA-rated protection.

### Key Specifications

### Electrical Capacity and Configuration

- Designed for 400V AC 3-phase supply, with current ratings from 100A to 630A depending on the model (Lewden feeder pillars) .
- Supports multiple EV chargers: 7.4kW single-phase, 22kW, 43kW, and 50kW three-phase chargers .
- Outgoing circuits include individual overcurrent and residual current protection, with RCCBs suitable for bi-directional power flow for potential vehicle-to-grid (V2G) applications .
- Some distribution boards (ABB Kabeldon) include main switch fuses, transformer kits for CTs, and mounting plates for billing meters, allowing easy expansion for additional chargers .
- Construction and Materials
- Cabinets are typically made from 2mm Zintec mild steel or stainless steel for harsh environments .
- Vandal-resistant lockable doors with concealed hinges and high-quality seals protect against weather, vermin, and dust .
- Modular interior design with wiring grooves and reserved component positions en...
