

Outdoor type of cabinet power distribution system for rail transit

Overview

A DNO Cubicle (Distribution Network Operator Cubicle) is an outdoor power distribution enclosure that houses incoming electrical supplies and associated equipment for railway infrastructure. We manufacture custom made cabinets and electrical enclosures for the railway sector, tunnels, ranging from cabinets located on sections of track, tunnels railway indication lights, barrier controls, signage, track crossings, outdoor enclosures, vandal-proof panels located in stations, suction-proof. RSP designs and manufactures high-quality DNO Cubicles for railway power distribution applications throughout the UK. Depending upon your application-specific needs, Bison carries a variety of high-performance materials to safeguard electronics and instrumentation while. Outdoor cabinets can be used in a variety of settings such as CCTV monitoring of the train, track and platform; or to house trackside functional electronics such as communications between the track and the train, or the signal box and the train. Either way, outdoor cabinets are of vital importance. These rail cubicles can be manufactured in stainless steel, mild steel or GRP and can be designed and tailored to meet project specific requirements in line with budgets and timescales. Thanks to a modular platform, nVent SCHROFF railway, cabinets.
