

P-line optical cable price

Article Overview

P-line optical cables typically range from \$0.09 to \$6 per foot, depending on fiber type, core count, and cable specifications.

Price Overview

The cost of P-line or similar fiber optic cables varies widely based on fiber type, strand count, and construction. For retail purchases, prices generally range from \$1 to \$6 per foot, while wholesale bulk purchases can be as low as \$0.09 to \$1.52 per foot for single-mode fiber . Multimode fibers (OM3/OM4) are more expensive, typically \$1.50 to \$6 per foot, due to higher manufacturing complexity . High-count backbone cables, such as 288-strand cables, can reach the upper end of this range .

Factors Affecting Price

- **Fiber Type:** Single-mode (OS2) is cheaper per foot than multimode (OM3/OM4), but requires more expensive equipment for termination .
- **Cable Construction:** Armored cables or those with LSZH (Low Smoke Zero Halogen) jackets cost more, often \$1.15 to \$6.50 per meter for armored variants .
- **Core Count:** Higher fiber strand counts increase cost; a 12-core cable is cheaper than a 144-core cable .
- **Installation Type:** Underground or outdoor installations are more expensive than indoor or aerial runs due to trenching, conduit, and labor costs .
- **Pre-Terminated vs. Bulk:** Pre-terminated cables cost 20-30% more upfront but reduce labor costs and installation time .
