

# PoE Industrial Switch Manufacturers

## Article Overview

Leading manufacturers of PoE industrial switches include Moxa, X-switches, Patton, CTC Union, and Maisvch, offering rugged, high-performance solutions for harsh environments.

### Key Manufacturers and Offerings

Moxa provides a wide range of PoE, PoE+, and PoE++ switches with up to 90 W per port, designed for high-speed data transmission and powering high-power devices over long distances. Their industrial-grade switches include 4 kV surge protection per LAN port and Smart PoE management features for simplified deployment and maintenance. X-switches specializes in durable Ethernet PoE and managed industrial switches engineered for stable connectivity in harsh settings. Their products support IoT integration, smart management, and are designed for automation, surveillance, and industrial applications with global certifications. Patton offers industrial PoE switches suitable for extreme environments such as military, marine, mining, oil-and-gas, and railway applications. Their FiberPlex and Connect-IT switches provide up to 30 W per PoE+ port, DIN rail or wall mounting, and operate across -40 to 75°C. They include EFT and ESD protection and are compliant with IEEE 802.3af/at standards. CTC Union, a Taiwanese manufacturer, produces industrial PoE switches with up to 24 Gigabit PoE ports and 60 W per port. Their rugged IP30 housings, fan-less designs, and compliance with IEEE802.3af/at, EN50155, and IEC61850-3 standards make them suitable for railways, automation, and building management systems. Maisvch manufactures rugged, high-performance managed and unmanaged PoE switches for industrial automation, CCTV, and factory networks. Their portfolio includes IP67-rated M12 connectors, 10G backbone switches, and OEM/ODM customization for port conf...
