

PoE Switch 1309 Manufacturer

Article Overview

The PoE Switch 1309 (DS-3E1309P-EI) is manufactured by Hikvision.

The DS-3E1309P-EI (B) is a smart managed PoE switch developed by Hikvision, a global provider of video surveillance and network equipment . It features 8 Power over Ethernet (PoE) ports supporting the 802.3at (PoE+) standard, allowing both data and power delivery over a single cable, which is ideal for IP cameras, access points, and other network devices . The switch supports long-range PoE transmission up to 300 meters when the Extend function is enabled, though at a reduced speed of 10 Mbps .

Hikvision's PoE switches, including this model, offer smart management features such as VLAN configuration, PoE Watchdog for automatic device restart, loop prevention, and remote management via Hik-Partner Pro or Hik-Central Pro . The switch is designed for small to medium-sized networks, providing reliable network performance with a maximum port speed of 100 Mbps .

In summary, if you are looking for the manufacturer of the PoE Switch 1309, it is Hikvision, and the model is widely used in surveillance and network infrastructure setups due to its PoE capabilities and smart management features .
