

Price Display of Drop Fiber Optic Cable

Article Overview

A standard FTTH drop fiber optic cable typically costs between \$0.13 per foot (retail) and \$0.65 per meter (bulk armored), depending on type, fiber count, and armoring.

Pricing Overview

- Basic 1-core FTTH drop cable: Around \$0.13 per foot for retail purchases .
- 2-fiber armored drop cable: Approximately \$0.55–\$0.65 per meter in bulk orders of 10 km or more .
- Multimode vs Single-mode: Single-mode fiber is generally cheaper per foot (\$0.10–\$0.50) than multimode (\$0.30–\$1.00), but single-mode requires more expensive equipment .
- Bulk purchases: Wholesale bulk orders can reduce costs significantly, with prices ranging from \$0.09 to \$1.52 per foot depending on fiber count and cable construction .

Factors Affecting Cost

- Fiber Count: Higher strand counts increase price. For example, a 12-strand cable costs around \$0.50 per foot, while a 24-strand cable can reach \$1.00 per foot .
- Cable Construction: Armored cables for outdoor or harsh environments cost more than indoor LSZH or riser-rated cables, but they reduce long-term maintenance costs .
- Installation Method: Underground or trench installations are more expensive than aerial or indoor runs, though this primarily affects total project cost rather than the cable itself .
- Connectorization: Pre-terminated or factory-terminated cables with connectors ar...
