

Price of Cylindrical Fixed Cable Trays

Article Overview

Cylindrical fixed cable trays typically range from \$20 to \$150 per meter, depending on material, diameter, and load capacity.

Overview

Cylindrical fixed cable trays are specialized cable management systems designed to support and organize electrical cables in industrial, commercial, and residential installations. They are often made from steel, stainless steel, or PVC, and are designed to withstand heavy loads and harsh environments while providing secure cable routing .

Factors Affecting Price

- **Material:**
 - **Steel:** Most common, durable, and cost-effective. Prices generally range from \$20 to \$60 per meter.
 - **Stainless Steel (304 or 316):** Offers superior corrosion resistance, suitable for outdoor or chemical environments, typically \$80 to \$150 per meter .
 - **PVC or Halogen-Free Plastic:** Lightweight and corrosion-resistant, usually \$25 to \$70 per meter .
- **Diameter and Load Capacity:** Larger diameters and higher load ratings increase the price. Cylindrical trays designed for heavy power cables or high-density installations cost more.
- **Finish and Coating:** Hot-dip galvanization or electro-galvanization adds durability and increases cost slightly compared to plain steel
