

Price of Fireproof Cable Tray Covers

Article Overview

Fireproof cable tray covers typically range from \$20 to \$150 per meter depending on material, size, and fire rating.

Pricing Overview

The cost of fireproof cable tray covers varies significantly based on material, thickness, and fire-resistance certification. Common materials include stainless steel, aluminum, and composite alloys, with stainless steel being the most expensive due to its high corrosion resistance and durability in harsh environments, often costing 2-3 times more than aluminum. Aluminum covers offer a balance of affordability, lightweight design, and natural corrosion resistance, while composite or FRP covers provide chemical resistance and electrical insulation at moderate prices.

Typical Price Ranges

- **Stainless Steel Fireproof Covers:** \$80-\$150 per meter, suitable for outdoor, chemical, or marine environments.
- **Aluminum Fireproof Covers:** \$40-\$90 per meter, ideal for moderate outdoor or industrial use.
- **Composite/FRP Covers:** \$30-\$70 per meter, offering chemical resistance and electrical insulation.
- **Plastic-Based or Light-Duty Covers:** \$20-\$50 per meter, mainly for indoor or low-stress applications. Bulk orders or customized sizes can affect pricing, with suppliers often offering discounts for large-scale industrial projects. For example, trough-type fireproof cable trays with fully enclosed covers for sensitive systems in chemical pla...
