

Price of Plastic Fiber Optic Splice Boxes

Article Overview

Plastic fiber optic splice boxes typically range from \$10 to \$150 per unit, depending on capacity, features, and supplier.

Price Range and Factors

- Small-capacity boxes (up to 12 cores): These are usually compact, indoor or wall-mount enclosures suitable for residential or small office networks. Prices generally start around \$10-\$30 per unit on platforms like Amazon and Alibaba .
- Medium-capacity boxes (24-48 cores): Designed for larger installations, often with multiple splice trays and better environmental protection. Prices typically range from \$30-\$70 per unit .
- High-capacity boxes (72-144 cores): Heavy-duty, waterproof, and UV-resistant enclosures for outdoor, underground, or FTTH/FTTX networks. These can cost \$70-\$150 or more per unit, especially for IP68-rated or flame-retardant models .

Key Features Affecting Price

- Material and Durability: Reinforced plastic, UV resistance, and flame-retardant properties increase cost .
- Capacity: More cores and splice trays require larger enclosures and more complex internal organization .
- Environmental Protection: Waterproof, dustproof, and impact-resistant designs for outdoor or underground use are more expensive .
- Installation Type: Wall-mount, inline, or direct-burial boxes vary in design complexity and price .
- Bulk Orders: Suppliers like Alibaba often offer lower per-unit prices for large order...
