

Price of Roadside Fiber Optic Cable Junction Boxes

Article Overview

Fiber optic junction boxes for road or outdoor use typically range from \$15 to \$150 per unit, depending on port count, core capacity, and IP rating.

Pricing Overview

- Small 2-port boxes: Suitable for up to 12-core splicing and 1×8 PLC splitting, these compact enclosures for FTTH or last-mile deployment generally cost \$15–\$40 per unit. They are made from high-strength engineering plastics, feature IP65 waterproof ratings, and support wall-mount installation for outdoor use .
- Medium 12-port or 24-port boxes: Designed for residential or commercial buildings, these boxes accommodate multiple SC adapters and provide fiber splicing, termination, and signal splitting. Prices typically range from \$50–\$100, depending on the number of ports, splitter inclusion, and material quality .
- High-capacity or rack-mounted boxes: For larger networks or central distribution points, 48-channel or 96-fiber boxes, including rack-mounted terminal boxes, can cost \$100–\$150 or more. These often include removable splice trays, multiple cable inlets, and support for both indoor and outdoor installations .

Key Features Affecting Price

- Port and Core Capacity: More ports and higher core capacity increase cost.
- Material: ABS or PC engineering plastics with UV resistance and impact strength are standard for outdoor boxes.
- Waterproof Rating: IP65 or higher ensures protection against dust and rain, which...
