

Price of Type 118 Fiber Optic Panel Box

Article Overview

The exact price of a Type 118 Fiber Optic Panel Box varies depending on the vendor, configuration, and number of adapter panels, typically ranging from \$50 to \$200 per unit.

Overview of Type 118 Fiber Optic Panel Box

The Type 118 Fiber Optic Panel Box is an LGX-compatible fiber enclosure designed for organizing and terminating fiber optic cables in data centers, telecom closets, or network rooms . LGX stands for Light Guide Cross-connect, and the panels have standard dimensions of 130×29 mm with a mounting hole spacing of 118 mm, which allows them to fit universally in LGX enclosures . These panels can accommodate various connector types, including LC, SC, ST, FC, MTRJ, and MTP, and support both single-mode and multimode fibers .

Types and Configurations

- **Rack-Mount Panels:** Available in 1U, 2U, and 4U sizes, with multiple slots for adapter panels. For example, a 1U panel may hold 2-3 LGX adapter panels, while a 2U panel can hold 4-6 panels .
- **Wall-Mount Panels:** Compact enclosures suitable for limited space, supporting 2-4 adapter panels for 24-96 fiber cores .
- **Swing-Out or Slide-Out Designs:** Some 1U or 2U enclosures feature sliding trays for easier fiber termination and splicing .
