

Price of a Level 3 Distribution Box and Socket Box

Article Overview

A Level 3 distribution box typically costs between \$1,200 and \$6,000 including installation, while industrial-grade socket boxes range from \$150 to \$500 depending on features and voltage ratings.

Distribution Box Pricing

The cost of a Level 3 distribution box depends on amperage, location (indoor vs outdoor), and installation complexity. For residential or commercial upgrades:

- 100-125A indoor panels: \$1,200-\$2,500 including labor and materials
- 200A outdoor panels with meter socket: \$3,000-\$6,000, with high-end installations reaching \$4,500-\$8,000 for complex routing, surge protection, and advanced safety features
- Labor rates typically range from \$75-\$120 per hour, with 6-18 hours required depending on project scope
- Regional variations exist: coastal metropolitan areas may be 5-15% higher, while rural areas may be slightly lower. Additional costs may arise from structural modifications, conduit rerouting, or replacement of old wiring.

Socket Box Pricing

Industrial-grade socket boxes are designed for portable or fixed power distribution in construction, industrial, or event settings:...
