

Price of bridge support structures near Ghana

Article Overview

Bridge support structures in Ghana, such as steel frameworks and scaffolding, typically range from GH¢ 250 for basic scaffold sets to higher costs for full steel structural components, with project-specific prices available via tenders and cost estimators.

Steel Structures and Bridge Components

Steel support structures for bridges, including beams, girders, and prefabricated frameworks, are available from local suppliers in Ghana. Prices vary depending on size, type, and quality of steel, as well as fabrication and delivery costs . For example, suppliers like Yehans International offer steel structures for construction projects, though exact pricing is often provided upon request based on project specifications .

Scaffolding and Temporary Supports

Scaffolds and props, which are essential for bridge construction, are sold locally in Ghana. A basic scaffold set, including legs, bars, and standing plates, can start from GH¢ 250, with larger or more durable systems costing more . These are used to support bridge decks, piers, and other temporary structures during construction.

Tender-Based Pricing

For full bridge projects, the most accurate pricing comes from government or privat...
