

Price of dustproof and explosion-proof electrical distribution boxes in Albania

Article Overview

Explosion-proof and dustproof electrical distribution boxes in Albania typically range from €150 to over €2,500 depending on size, material, and certification.

Price Overview

The cost of dustproof and explosion-proof enclosures varies widely based on several factors:

- Compact junction boxes for small instruments or low-voltage terminations generally start around €150–€300. These are suitable for confined spaces and small I/O connections .
- Medium-sized enclosures for industrial applications, offering higher corrosion resistance and mechanical strength, typically range from €400–€1,200. These are commonly used for terminal boxes, automation systems, and general-purpose wiring interfaces .
- Large or high-amperage distribution boxes designed for motors, pumps, or circuits in hazardous areas can exceed €2,000–€2,500, especially when made from stainless steel or aluminum and certified for ATEX, IECEx, or UL standards .

Factors Affecting Price

- Material: Stainless steel (316L) and aluminum enclosures are more expensive than polycarbonate or reinforced polyamide due to durability and corrosion resistance .
- Certification: ATEX, IECEx, UL, or CSA certifications increase cost, particularly for...
