

Price of electrical distribution boxes for construction site renovation

Article Overview

Electrical distribution boxes for construction sites typically range from \$150 to over \$1,000 depending on capacity, features, and durability.

Overview of Construction Site Distribution Boxes

Construction site distribution boxes, also called site boxes or worksite enclosures, are designed to provide temporary or semi-permanent power distribution for lighting, tools, and other equipment. They usually include circuit breakers, differential switches, and emergency stop buttons to ensure safety and prevent overloads or short circuits . Many are waterproof and dustproof, suitable for harsh outdoor environments .

Price Ranges

- Small portable boxes (single-phase, 110V, 60A) with a few outlets and basic protection can cost around \$150-\$300 .
- Medium-duty boxes with multiple circuits, higher amperage, and enhanced safety features typically range from \$300-\$700 .
- Heavy-duty or industrial-grade boxes for three-phase power, high amperage, or custom configurations can exceed \$1,000, especially if they include smart monitoring, energy management, or weather-resistant enclosures .
