

Price of outdoor server rack grounding grid

Article Overview

Outdoor server rack grounding grids typically range from \$50 to \$300 depending on size, materials, and included accessories.

Overview of Pricing

- Basic grounding kits for server racks, including rods, wires, and connectors, are available on platforms like Amazon starting around \$50 to \$100 for all-weather stainless steel kits suitable for outdoor use .
- Enterprise-grade grounding kits, such as the HPE G2 Rack Grounding Kit, designed for professional server cabinets and enhanced electromagnetic protection, are priced higher, generally in the \$150 to \$300 range depending on configuration and vendor .
- Grounding bars and bus bars for larger racks or modular setups, often made from high-conductivity copper or copper-clad steel, can cost \$100 to \$250 for 1U or 10U bars, with prices influenced by corrosion-resistant coatings like tinning or nickel plating .

Factors Affecting Price

- **Material:** Copper and copper-clad steel are more expensive but provide superior conductivity and durability. Stainless steel kits are more affordable and weather-resistant.
- **Size and Coverage:** Larger racks or multi-rack installations require longer grounding wires and multiple bars, increasing cost.
- **Accessories Included:** Kits with rods, clamps, bonding straps, and mounting hardware...
