

Price range for 4-core outdoor optical fiber cable

Article Overview

The price of 4-core outdoor optical fiber cables ranges from approximately \$0.40 to \$2.04 per meter, depending on type, durability, and installation requirements.

Price Overview

The cost of 4-core outdoor fiber optic cables varies based on fiber type, jacket material, and protective features:

- Standard single-mode OS2 cables with PVC jackets typically cost \$0.60-\$0.90 per meter, with a 100-meter reel priced around \$60-\$90 for basic outdoor use (OWIRE) .
- Ruggedized armored cables with TPU jackets, steel mesh, or direct burial capability can cost more, ranging from \$1.50-\$1.80 per meter for high-durability outdoor installations (OWIRE, FLYPROFiber) .
- Bulk or wholesale options may start at \$2.04 per unit for armored outdoor cables, with minimum order quantities of 10 units, suitable for FTTX deployments (Alibaba) .

Factors Affecting Price

- Fiber Type: Single-mode (OS2) supports long-distance transmission and is more expensive than multimode (OM3/OM4) designed for shorter runs .
- Jacket Material: Outdoor-rated, UV-resistant, waterproof, or armored jackets increase durability and cost .
- Installation Environment: Direct burial, aerial, or conduit installations may require specialized cables, affecting price
