

Ranking of Manufacturers of Fiber Optic Cable Equipment for Smart Buildings

Article Overview

Corning, Prysmian, AFL, Sumitomo Electric, and OFS Optics are among the leading fiber optic cable manufacturers for smart building applications in 2026.

Leading Manufacturers

1. Corning Inc. (USA) Corning is a global leader in fiber optics, holding approximately 10.4% of the market share and pioneering low-loss optical fiber technology since 1970 . Their innovations include Co-Packaged Optics (CPO) and high-density glass substrates, which are ideal for AI-driven data centers and smart building networks . Corning offers a full range of indoor and enterprise solutions, including FTTH, ODN, and high-performance multimode fibers, ensuring low insertion loss and high reliability . 2. Prysmian Group (Italy) Prysmian is a major player in both submarine and terrestrial fiber optic cables, with a 15% global market share . Their products are known for high tensile strength, low attenuation, and fire-resistant designs, making them suitable for smart building infrastructure and long-haul indoor networks . Prysmian also emphasizes sustainability and eco-friendly manufacturing. 3. AFL (Advanced Fiber Logistics, USA) AFL specializes in OPGW and high-density fiber solutions for data centers and industrial applications . They provide comprehensive testing and inspection equipment to ensure proper installation, which is critical for smart building networks where reliability and low downtime are essential . AFL maintains ISO 14001 environmental certification and offers strong domestic support for government and enterprise projects. 4. Sumitomo Electric Industries (Japan) Sumitomo is recognized for ultra-low-loss fibers and advanced VAD (vapor-phase ax...
