

Recommended Companies for 8-Core Fiber Optic Cables in Smart Buildings

Article Overview

Corning Inc. and Prysmian Group are leading providers of advanced 8-core fiber optic cables optimized for smart building networks.

Corning Inc.

Corning is a global leader in fiber optic technology, known for ultra-low-loss, bend-insensitive fibers and high-density multi-core cables. Their Sirocco™ Extreme Microduct Cables and FlexRibbon® technology allow for compact, high-capacity installations, making them ideal for smart buildings where space is limited and high-speed connectivity is critical (Corning supports up to 576 fibers in an 8.2mm cable) . Corning invests heavily in R&D, ensuring their cables are compatible with next-generation networks, including AI-driven and high-bandwidth applications. Their products are widely used in enterprise, data center, and government projects, with strong compliance to BEAD and Buy America standards .

Prysmian Group

Prysmian offers high-performance, fire-resistant, and bend-optimized fiber cables suitable for indoor smart building deployments. Their solutions include multi-core and hybrid cables that provide low attenuation (0.2 dB/km) and high tensile strength, ensuring durability in complex building infrastructures . Prysmian's extensive experience in large-scale projects and sustainable manufacturing practices makes them a reliable choice for commercial and government smart building networks....
