

Request a quote for a 1U server rack

Overview

Choose from the wide selection of 1U servers or simply request a quote based on your server requirements. 1U Rack Servers occupy one rack unit - 1.75 inches in height, and are ideal for both small and large projects. 1U servers offer fast storage, processing power, and energy efficiency, and typically offer support for a single-slot full-height PCIe expansion card all in an extremely small footprint. Have any questions?

Talk with us directly using LiveChat. See the latest in 1U Servers supporting the 4th generation Intel® Xeon® Scalable and AMD EPYC™ 9004 Series Processors offering numerous advantages over previous generations including the highest levels of performance, efficiency, security and scalability in the industry. The 1U rackmount servers. For a low cost and easy to install server, these 1U rack servers have either a 1-socket or 2-socket configuration, while coming in a comprehensive range of servers around AMD, Intel, and Ampere processors. Whether used as compute nodes in a virtualization platform, as compact storage servers, or as industrial control units - these 1U systems.
