

Riddles related to optical cables

Overview

There's a presentation on Crypto mining on stage. Presenter: In 15 minutes minutes we have mined, an incredible 10 bucks in gold. My friend works for the telephone company, repairing fiber optic cables. Can you take on this tricky list of brain teasers, including riddles by Albert Einstein, without making a single mistake?

We've been in the lockdown for quite a while now, and if there's one thing we've learned for sure it's that working from home is a breeze with the right tools and that brain. There's a presentation on Crypto mining on stage. I've told him he should. What optical phenomenon occurs when light is refracted as it passes through different mediums?

What type of lens is thicker at the center than at the edges?

What term describes the bending of light rays as they pass through a lens?

What device uses mirrors and lenses to view distant objects?

What. Whether you're a tech enthusiast, a student, or just someone who loves a good puzzle, this blog post is a collection of fun and mind-bending technology riddles. Riddles are not just a great way to pass the time—they also help sharpen your mind. I've curated a special collection of riddles for all. Here are 40+ technology riddles that explore the world of technology! Test your knowledge and have some fun with these brain teasers about gadgets, devices, and digital innovations. Enjoy. The Fata Morgana occurs because rays of light are bent when they pass through air layers of different temperatures in a steep thermal inversion, where an atmospheric duct has formed. It significantly distorts the object on which it is based, often such that the o...
