

SFP of Korean Independent Switch for Island Use

Article Overview

Choosing the right SFP module for a Korean independent switch requires matching port type, speed, fiber type, and environmental specifications to ensure stable, long-term network performance.

Understanding SFP Modules

SFP (Small Form-factor Pluggable) modules are hot-swappable transceivers that connect switches to fiber or copper networks. They come in various types based on speed and signaling:

- SFP (1G): Supports Gigabit Ethernet, suitable for short-range connections (
