

Samoa Temperature-Controlled Optical Cable Installation Manufacturer

Article Overview

TE SubCom, in partnership with Samoa Submarine Cable Company (SSCC), is the primary provider and installer of advanced submarine fiber optic cables in Samoa.

Overview of SSCC and Submarine Cable Projects

The Samoa Submarine Cable Company (SSCC) operates Samoa's international fiber optic network, including the Tui-Samoa submarine cable connecting Apia, Samoa to Suva, Fiji, with branches to Wallis & Futuna and Savai'i . SSCC's mandate is to provide fast, reliable, and affordable internet services while supporting ICT innovation and regional connectivity . The company also manages cable landing party arrangements for other regional and trans-Pacific systems, ensuring open access and non-discriminatory service .

TE SubCom: Manufacturer and Installer

TE SubCom is a global leader in undersea communications technology, specializing in the design, manufacture, deployment, and maintenance of fiber optic cable systems . Their solutions include long-haul and regional submarine networks, repeaterless systems, and capacity upgrades. TE SubCom's expertise ensures that cables are engineered to withstand environmental challenges, including temperature variations in tropical and deep-sea conditions, which aligns with the operational requirements for Samoa's submarine cables
