

Saudi Arabia Smart Power Distribution Cabinet Company

Overview

Centrally situated in the Kingdom's capital, Riyadh, SEP is a leading ISO certified, Aramco and Saudi Electricity Company (SEC) approved manufacturer for supplying of relay, control, automation and distribution panels from its 8000sqm weather protected industrial unit. The Forrester TEI study reveals a 184% return on investment, accelerated DER integration, and a payback period of just 16 months. Ranked #1 by ABI Research in innovation and implementation, we lead the grid digitization software market — thanks to our top-tier products, strong deployments, and a. Power distribution systems deliver electricity from the source to multiple endpoints, ensuring safe, efficient energy flow across residential, commercial, and industrial spaces. These systems include circuit breakers, switchboards, and distribution panels, all designed to optimise energy use. We are approved local manufacturer for Protection Relay and Control Panels up to 380kV Substation with National Grid Saudi Arabia, Saudi Electricity Company and Saudi Aramco. We offer complete Automatic Metering Infrastructure (AMI) Solution based on various meters and technology for. Our Power Quality & Energy Efficiency services focus on improving the reliability, stability, and efficiency of your electrical infrastructure. We analyze power systems to identify issues such as harmonics, voltage fluctuations, power losses, and inefficient energy usage. Our core switchgear cabinet series — designed to meet IEC, GB, and SASO standards for Saudi Arabia's demanding power distribution environments. Beyond the Enclosure: Why the PMT Cabinet is the Unsung Hero of Saudi Arabia's Power Grid! The Pole Mounted Transformer (PMT) Cabinet is far more than just a steel box; it is a dedicated layer of protection and the critical link ensuring the safety and reliability of our Low-Voltage (LV) power.
