

# Selection of German Fire Protection Distribution Boxes

## Article Overview

German fire protection distribution boxes are designed to ensure electrical safety during fires, with certified fire resistance, compliance with DIN and VDE standards, and suitability for various environments.

### Key Manufacturers and Product Lines

f-tronic offers a range of fire protection socket and distribution boxes, including the NEPTUN series for damp areas and protected outdoor installations. These boxes are halogen-free, respond immediately to fire and heat, and are certified for safety in escape routes and rooms. The NEPTUN Compact series and NFK series provide small, robust solutions for damp areas, with innovative installation systems such as foam-mounted flush boxes for timber construction . Spelsberg specializes in high-quality cable junction and surface-mounted distribution boxes with fire protection. Their WKE series provides intrinsic fire resistance from 30 to 90 minutes (E30 to E90), tested according to DIN 4102 part 12, with VDE certificates and general building supervisory approvals. These boxes are suitable for emergency lighting, smoke extraction, and other critical electrical systems in buildings and tunnels . ROSE Systemtechnik supplies Ex d flameproof enclosures for industrial applications, including energy distribution and control systems. Their aluminium and stainless-steel enclosures comply with IP66 protection standards and are suitable for hazardous environments such as oil, gas, chemical, and pharmaceutical industries. Custom modifications, including sight glasses and paint systems, are available to meet specific operational requirements ....
