

Senegal Distribution Box Circuit Breaker Specifications

Article Overview

Distribution box circuit breakers in Senegal typically include DZ47-63H miniature breakers and molded case breakers rated for 230/400V AC, 50/60Hz, with current ratings up to 63A, compliant with IEC and national standards.

Miniature Circuit Breakers (MCBs)

The DZ47-63H is a commonly used miniature circuit breaker in Senegal for household and distribution box applications. Key specifications include:

- Rated Voltage: 230V AC (single-phase) / 400V AC (three-phase)
 - Rated Current: Up to 63A
 - Frequency: 50/60Hz
 - Protection: Overload, short-circuit, and isolation functions
 - Standards Compliance: IEC60898, GB10963.1
 - Operation: ON/OFF toggle for manual switching; trips automatically under fault conditions
 - Installation: Suitable for DIN rail mounting inside distribution boxes
 - Additional Features: Can be paired with surge protective devices upstream for voltage and current surges
- These MCBs are designed for non-professional operation and do not require maintenance, making them suitable for residential and light commercial installations.
