

Singapore-based manufacturer of large-scale forging and milling modules

Article Overview

SM Metal Solutions and Wong Hing Long Technologies are leading Singapore-based manufacturers offering large-scale forging and precision milling solutions.

SM Metal Solutions

SM Metal Solutions is a Singapore-headquartered turnkey specialist in metal casting and forging with over 40 years of experience. The company provides end-to-end engineering solutions, including sand casting, lost wax casting, forging, machining, and trial assembly. Their capabilities cover:

- Pattern making and material selection
 - Casting method selection and heat treatment
 - Complete machining and testing
 - Trial assembly and reverse engineering
- SM Metal Solutions serves industries such as mining, bulk material handling, precast and brickworks, cement processing, waste-to-energy, and general engineering, making it suitable for large-scale industrial projects requiring robust forging and milling modules.

Wong Hing Long Technologies

Wong Hing Long Technologies, established in 1949, is a premier provider of precision metal fabrication and CNC milling services in Singapore. Their capabilities include:...
