

South African Coherent Optical Module SFP

Overview

The CLT-SFP+SM-1310nm is a 10 Gigabit Ethernet SFP+ transceiver designed for single-mode fiber networks. It operates at 1310nm wavelength and supports transmission distances up to 10km. The module features an LC connector interface and is compatible with standard SFP+ slots in. This product has multiple variants. The options may be chosen on the product page. Fiber optic transceiver modules are fiber cable adaptive housings that contain a light source for transmitting data via fiber optic cable as well as a photodiode for receiving fiber optic data. Mounting options include pluggable CXP, QSFP, SFF, SFP, and XFP, surface or through-hole, CFP, 1x9 SC. As specialized fiber optic transceivers manufacturer, Star Computer Limited is located in Johannesburg, South Africa. The company was founded in 1999, at first we mainly made cable assemblies, later we expanded our business to various kinds of fiber optic transceivers, our transceiver products types. Apache Optics is the proud supplier of Transceivers and Fibre-based Products developed in South Africa! The Apache Optics Group is the leading provider of fibre-based products to the telecoms and data sectors. The company was founded in South Africa in 2013 and has offices in Johannesburg, Dublin. Automotive Real Estate and Construction Food & Beverage Energy & Power Logistics Financial Services and Investment Intelligence Manufacturing Products and Services Animal Nutrition & Wellness Consumer Goods and Services Packaging Hospitality and Tourism Professional and Commercial Services. Get the pluggable module performance you need from the manufacturer of choice for major networking equipment vendors worldwide.
