

Specifications and Models of Outdoor Optical Cable Flanges

Overview

The product range includes ADSS, GYTA/GYTS loose tube stranded types, GYTA33 heavy armored, and Figure-8 self-supporting structures. This document serves as a guide for outdoor fiber optic cable selection and installation for professionals in the telecommunications industry. Highly trained and qualified associates thoroughly inspect the incoming fibers and ferrules, and assemble and polish them using a carefully monitored and controlled process. The assemblies undergo rigorous performance testing to secure optimal quality. Rugged fiber optic cable is constructed so as to resist ultra-violet light and temperature fluctuations and may include features to. SEDI-ATI by Fiber Optics Group offers designed fiber optic cables for outdoor applications, resistant to extreme constraints : fire, water, traction, vehicle passage. Bespoke configurations available.
