

Specifications and models of plugs for factory power distribution boxes

Overview

The most common global system for industrial plugs and sockets is IEC 60309, often called CEE, CEEform, or pin and sleeve connectors. What Is an Industrial Plug?

An industrial plug, also called a CEEform plug or IEC 60309 industrial plug, is a heavy-duty. They are standardized industrial power interfaces used to organize current rating, voltage, pole configuration, protective-earth position, and environmental protection. IEC 60309-1 applies to industrial plugs, fixed or portable socket-outlets and appliance inlets with rated operating voltage up to. Leviton has the broadest offering of heavy duty, watertight, NEMA and IEC plugs and connectors for commercial and industrial grade applications. The PowerTOP® Xtra CEE plugs and connectors stand for exceptional durability and long service life. With AMAXX® power distribution units, you benefit from flexible configuration options, while. Industrial plugs, sockets, and distribution boxes are specifically designed for power connections and electrical equipment control in industrial environments.
