

Specifications of Explosion-proof Distribution Boxes for Smart Buildings

Article Overview

Explosion-proof distribution boxes are specialized enclosures designed for safe electrical distribution in hazardous areas, available in multiple models, materials, and configurations to meet IECEx, ATEX, and UL standards.

Key Models and Types

- CEAG GHG60 Series: Offers IEC Ex e protection, available in fiberglass-reinforced polyester and electropolished stainless steel, with multiple enclosure sizes and optional cable entries, bus bars, or extensions for flexible installation .
- HRMD91 Series: Flameproof (Ex d IIB+H2) enclosures made from copper-free aluminum alloy, powder-coated, suitable for distribution boxes, switch boxes, control boxes, and motor starting boxes. Features specialized hinges to protect flameproof joints and supports modular installation .
- Pepperl+Fuchs EJB/EJBX Series: Terminal and junction boxes in aluminum (EJB) or stainless steel (EJBX), certified for Zones 1, 2, 21, 22, and Class I/II Division 1. Offers IP66/IP67 protection, wide operating temperature ranges (-60°C to high ambient), and customizable terminals, cable entries, and viewing windows .
- Shenhai Series: Includes GCK, GCS, MNS (low-voltage withdrawable switchgear), GGD, GDH, PGL (fixed switchgear), XZW (comprehensive distribution), ZBW (box-type substation), XL/GXL (low-voltage distribution), XF (electrical control), and PZ/PXT series for terminal lighting and metering boxes. Supports 220V/380V, single-phase or three-phase input, and configurable main switch types and protection levels .
- Atex Delvalle Series: Custom stainless steel (AISI 304L/316L), aluminum, and GRP...
