

Suriname construction site electrical distribution box model

Overview

The Suriname bottling plant required a centralized low-voltage distribution architecture built around a step-down transformer, a main switch panel, a main distribution panel, sub-distribution panels, and a dedicated UPS-related supply path. The goal was not just to. The Power Distribution Panel, manufactured by Brilltech, are known to exhibit attributes such as compact design, fully tested and excellent quality complying to ISO standards. Based in South Africa with EU engineering support. Wieland is your experienced and reliable partner for efficient, pluggable and decentralized electrical installation. In this Suriname project, the client needed exactly that kind of logic: a power-distribution structure that separated critical loads, supported safe protection, and made long-term plant management. Contextual Info: In consideration of modifications to Standards and materials, the characteristics and overall dimensions indicated in this catalogue may be considered binding only following confirmation by ABB Copyright 2010 ABB. System pro M compact and other modular devices.
