

Tanzanian Optical Distribution Box

12-core

Overview

Multi-Functional Design: With 12 core inputs and 2 outputs, this box provides an efficient way to manage and distribute optic signals, making it ideal for FTTH (Fiber-to-the-Home) and FTTP (Fiber-to-the-Premises) applications. Get exclusive offers, tech tips, and the latest product updates — straight to your inbox. Feature: 12 ports optical fiber distribution box is used for the fusion splicing, splitting, wiring transmission and other functions of the optical transmission terminal; It can effectively terminate, protect and manage the optical cable. Compact Size: Measuring 230x205x55mm, this compact design allows for. Raddy Fiber Manufacturing (T) Limited, a subsidiary of our parent company, is strategically located in Mwanambaya, a part of the Mkuranga district within the Coast Region, conveniently situated just 25 kilometers from Dar-es-Salaam. Our unwavering commitment revolves around the production of. The splitter termination box is suitable for fiber terminal point to complete connection, distribution and scheduling between perimeter fiber cables and terminal equipment, especially suitable for mini-network terminal distribution. We supply a series of optical distribution frames from 12.
