

Ukraine Cybersecurity Equipment Procurement

Overview

Ukraine's procurement landscape operates through ProZorro (open e-procurement portal) and direct negotiations for classified/urgent defense contracts, with the Ministry of Defense, State Border Guard Service, and State Emergency Service as primary buyers. As Ukraine rebuilds in the face of war and drives forward its EU accession agenda, public procurement stands at the intersection of transparency, accountability, and opportunity. With billions of euros in reconstruction funding at stake, Ukraine's open and digitalized procurement system is designed. This report explores Ukraine's shift in the development and deployment of military innovation, with a special focus on the role of the commercial sector and on changes in the acquisition process that have facilitated the rapid integration of these technologies into military operations. Key Findings. Since launching in September 2023, the IT Coalition has raised €157 million in financial assistance for Ukraine. Oksana Ferchuk, Deputy Minister of Defence of Ukraine for Digital Development, Digital Transformation and Digitalization. Credit: IT Arena As much as the Ukraine-Russia conflict is. Government procurement intelligence: live solicitations, agency tracking, and market analysis GlobalGov tracks 10K government procurement notices from 5K agencies in Ukraine. The IT Coalition was established in September 2023 under the 'Ramstein' format framework to provide targeted support to the Ministry of Defence of Ukraine and the Armed Forces of Ukraine in the areas of information technology (IT), communications, and cybersecurity.
