

Vertical Cap-type Optical Cable Junction Box

Overview

Cable Joint Box is designed for splicing ADSS,OPGW cables and the normal cables, including two to four sleeves for input and output. Loose storage space makes storage more conveniently, quickly and cable bending radius big enough, avoiding fiber optic extra loss and ensuring. Optical Cable Joint Box, also known as Optical Cable Splicing Closure, is where the end of the optical cable is connected. It also has excellent. GY08-1 cap type cable joint box adopts innovative design, manufacture and material selection, and its mechanical sealing technology ensures the reliability and stability of the product. Common: +86-532-86768576 HR: +86-532-86767306 WhatsApp☑ +86-18905425907 E-mail: qdapt@qdapt. Adjacent words that are implicitly ANDed together, such as (safety belt), are treated as a phrase when generating synonyms. Chemistry searches match terms (trade names, IUPAC names, etc. extracted from the entire document, and processed. What are the categories of optical cable junction boxes: 1. According to the optical cable connection method, it can be divided into straight-through type and branching type.
