

Warning icons for outdoor power distribution boxes

Article Overview

Outdoor power distribution boxes typically feature warning icons such as high voltage, electrical hazard, live wires, and authorized personnel only to ensure safety and prevent accidents.

Common Warning Icons and Their Meanings

- **Danger: High Voltage** – Indicates the presence of high-voltage electricity that can cause severe injury or death. These signs are commonly placed on substations, transformer enclosures, and outdoor distribution boxes to alert workers and the public to maintain a safe distance .
- **Danger: Electrical Hazard** – Warns of serious risks such as electric shock, burns, or electrocution. Often found near electrical control panels, breaker rooms, and industrial machinery .
- **Caution: Live Wires** – Alerts individuals to exposed live wires that can cause electric shock. These are typically used at construction sites, utility maintenance areas, and outdoor installations .
- **Authorized Personnel Only** – Restricts access to trained personnel to prevent accidental contact with electrical components .
- **Arc Flash Hazard** – Indicates potential for arc flash, a dangerous release of energy from electrical equipment, often used on high-energy outdoor panels .
- **Disconnect Before Servicing / Lockout-Tagout Required** – Reminds workers to de-energize equipment before maintenance to prevent accidents .
