

What are some manufacturers of flame-retardant cable trays

Article Overview

BEIMCO, EAE Electric, Flamro, and HERMI are among the companies specializing in flame-retardant cable trays and fire-resistant cable management solutions.

Key Companies and Products

BEIMCO manufactures pultruded cable trays using polyester/vinylester and fire-retardant grade resin. Their trays are Class I flame retardant and meet ASTM standards (ASTM-635), with UV-resistant surfaces for durability in harsh environments . EAE Electric offers GRP (Glass Reinforced Plastic) cable trays and ladders that are fire-resistant, self-extinguishing (UL 94 V0 rated), halogen-free, and compliant with ASTM-E84 Class-1 standards. These trays are lightweight, corrosion-resistant, and suitable for high-temperature and chemically challenging environments such as oil and gas fields, tunnels, and marine facilities . Flamro provides fire protection solutions for cables and cable trays, including FLAMMOTECT-A coatings and DG-CR 0.7 fire protection tapes, which prevent flame propagation and maintain cable functionality during fires. Their products are used in high-rise buildings, industrial plants, hospitals, airports, and nuclear facilities . HERMI Solutions specializes in fire-resistant cable trays designed for constructing safe cable paths with surface cable laying. They offer both standard and lightweight options and provide expert guidance for selecting the most suitable fire-resistant solutions .
