

What are some manufacturers of melt fiber tray manufacturing equipment

Article Overview

Key manufacturers of melt fiber tray production equipment include Besure Technology, Huhtamaki Molded Fiber Technology, Parason, and Hills, Inc., offering fully automated and turnkey solutions for industrial-scale production.

Leading Manufacturers

1. Besure Technology Besure specializes in fully automatic molded fiber machines, including pulp molding systems, forming machines, drying lines, and hot pressing units. Their equipment is designed for high output, energy efficiency, and low maintenance, suitable for producing egg trays, tableware, industrial packaging, and cup lids. Besure machines offer modular designs for easy integration and scalability, supporting production capacities of 6,000 to 12,000 eggs per hour for egg trays, with options for printing and labeling for branding purposes . 2. Huhtamaki Molded Fiber Technology Operating under the Leotech® brand, Huhtamaki provides pulp molding machinery and finishing equipment for a wide range of applications, including eggs, fruit, and industrial products. They offer global support, on-site installation, and operator training. Huhtamaki is recognized for its reliability, flexibility, and long-term commitment to sustainable molded fiber production . 3. Parason Parason manufactures molded fiber forming machines and turnkey plants with capacities ranging from 3 to over 100 tons per day (TPD). Their equipment serves industries such as tableware, packaging, electronics, and medical products, and they have a presence in over 70 countries . 4. Hills, Inc. Hills, Inc. is a leading supplier of fiber extrusion and meltblown equipment, specializing in high-value specialty fibers and...
