

What are some nitrogen generator manufacturers for optical fiber cables in Tunisia

Article Overview

Key nitrogen generator manufacturers for cable production include Linde, OXYMAT, and other global suppliers capable of serving the Tunisian market.

Leading Manufacturers

- Linde Linde offers the SPECTRA® N on-site nitrogen generators, which provide ultra-pure nitrogen for industrial applications, including cable production. Their systems are scalable, with capacities ranging from 7,000 to 70,000 Nm³ per hour, and feature integrated designs that minimize installation space and simplify operation, making them suitable for optical fiber cable manufacturing .
- OXYMAT OXYMAT specializes in PSA nitrogen generators for cable production. Their systems maintain a controlled nitrogen atmosphere during processes such as coating, galvanization, and copper wire tempering. This ensures high-quality insulation, reduces oxidation, and improves durability. OXYMAT generators are customizable for different nitrogen purity levels, which is critical for optical fiber cable applications .
- Advanced Gas Technologies (ADG) ADG provides nitrogen generation solutions tailored for the wire and cable industry. Their generators help improve insulation quality, reduce oxidation, and enhance production efficiency. They offer on-site nitrogen systems that eliminate the need for liquid nitrogen or gas cylinders, which can be costly and logistically challenging .
- Minnuo Gas Minnuo Gas focuses on nitrogen generators for cable production, emp...
