

What are the complete sets of low-voltage electrical control boxes

Overview

Our portfolio comprises power distribution boards, busbar trunking systems, distribution boards, protection, switching, measuring and monitoring devices, switches and socket outlets. From circuit breakers and buses to enclosures, panel boards, and switchboards, we offer a full range of safe, reliable solutions for low-voltage electrical distribution applications. The business improves the reliability and efficiency of its customers' activities across all. ABB provides the highest-quality, most versatile, innovative and comprehensive line of metallic, non-metallic, indoor, outdoor, weatherproof, and floor boxes from the Steel City ®, Red Dot ®, Carlon ® and Iberville® brands. We will be glad to provide you with extensive support from initial information, planning, configuration and. GHS168 is our company absorbing foreign technology and developed the design of the low-voltage drawer-type switch equipment. GGD is a Withdrawable Low Voltage Complete-set Switchgear Equipment with high-reliability versatility and maintain conveniently. XL is a kind of compact structure, convenient.
